Sequence 2, Application US/10238709

Patent No. 6680188

GENERAL INFORMATION:

APPLICANT: WEBSTER, Maxion et al

TITLE OF INVENTION: ISOLATED HUMAN KINASE PROTEINS, NUCLEIC

TITLE OF INVENTION: ACID MOLECULES ENCODING HUMAN KINASE PROTEINS, AND USES

TITLE OF INVENTION: THEREOF

FILE REFERENCE: CLO01164DH 10/238, 709

CURRENT APPLICATION NUMBER: US/10/238, 709

CURRENT FILING DATE: 2002-09-11

NUMBER OF SEQ ID NOS: 4

Sequence 4, Application US/09804471A

Patent No. 6479269

GENERAL INFORMATION:

TITLE OF INVENTION: ISOLATED HUMAN KINASE PROTEINS, NUCLEIC

TITLE OF INVENTION: ACID MOLECULES ENCODING HUMAN KINASE PROTEINS, AND USES

TITLE OF INVENTION: THEREOF

TITLE OF INVENTION: THEREOF

CURRENT APPLICATION NUMBER: US/09/804,471A

CURRENT APPLICATION NUMBER: 2001-03-13

NUMBER OF SEQ ID NOS: 4

SOFTWARE: FRSESEQ for Windows Version 4.0
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      180
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                240

Sequence 2, Application US/10282048
Patent No. 6692948
GENERAL INFORMATION:
PAPLICANT: WEI, MING-Hui et al.
TITLE OF INVENTION: ISOLATED HUMAN KINASE PROTEINS, NUCLEIC
TITLE OF INVENTION: ACID MOLECULES ENCODING HUMAN KINASE PROTEINS, AND USES

```
Sequence 4, Application US/09916204

Sequence 5, Application US/10282048
Patent No. 662948
GENERAL INFORMATION:
APPLICANT: WEL, MAING-Hui et al.
TITLE OF INVENTION: ISOLATED HUMAN KINASE PROTEINS, NUCLEIC
TITLE OF INVENTION: ACID MOLECULES ENCODING HUMAN KINASE PROTEINS, ITLE OF INVENTION: THEREOF
FILE REFERENCE: CLOO1164CIP-DIV
CURRENT APPLICATION NUMBER: US/10/282,048
CURRENT FILING DATE: 2002-10-29
NUMBER OF SEQ ID NOS: 6
SOFTWARE: FASTSEQ for Windows Version 4.0
SEQ ID NO 5.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         .

Huang C.Q., Wu S.L., Shan Y.X., Liu S., Xiao P.J.;

Submitted (MAR-2003) to the EMBL/GenBank/DDBJ databases.

-!- SIMILARITY: Belongs to the SerThr protein kinase family.

-!- SIMILARITY: Contains 1 PH domain.

IN RESP. PAINTIANITY: Belongs to the Ser/Thr protein kinase family.

C -!- SIMILANITY: Belongs to the Ser/Thr protein kinase family.

C -!- SIMILANITY: Contains 1 PH domain.

DR Resp. PAINTIA: IMRY.

SUMMARIES

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
